- mainx.h

```
#ifndef MAIN_H #define MAIN_H  
int numOfOnes (int x);  
#endif
```

- Exercise x.c

```
#include <stdio.h>  
#include "mainx.h"
```

```
int main() { int test = ...;  
    printf("%d", numOfOnes(test));  
    return 0; }
```

```
int numOfOnes (int x) {  
    char buf[50]; int ones = 0; int i;  
    sprintf(buf, "%b", x);  
    for (i = 0; i < strlen(buf); i++) {  
        if (buf[i] == '1')  
            ones++;  
    }  
    return ones;  
}
```
